PROFESSIONAL SUMMARY

Results-driven **Full-Stack Laravel Developer** with **3+ years** of expertise in architecting, developing, and optimizing high-throughput web applications and enterprise platforms. Strong proficiency in **PHP, Laravel, RESTful APIs, MySQL database design**, and modern frontend technologies (React Js, JavaScript, Tailwind CSS). Proven track record of enhancing application performance by up to **35%** using Redis caching, asynchronous background jobs, and query optimization. Experienced with cloud infrastructure (AWS), third-party payment gateways (Stripe, PayPal), and modern **AI/LLM, RAG integrations**.

TECHNICAL SKILLS

Programming & Backend: PHP (8.x), Laravel (10/11/12), OOP, RESTful APIs, MVC Architecture, Data Structures

Frontend Technologies: JavaScript (ES6+), React.js, Tailwind CSS, HTML5, CSS3, AJAX, jQuery, Fetch API

Database & Caching: MySQL, PostgreSQL, Redis Caching, Schema Design, SQL Query Optimization, Indexing

Cloud & DevOps: AWS (EC2, S3, SQS), Git, GitHub Actions, Asynchronous Queues

APIs & AI Integrations: Stripe, PayPal, WebSockets, Firebase, Autonomous AI Agents, RAG, OAuth / Socialite

PROFESSIONAL EXPERIENCE

Full-Stack Laravel Developer – Getepay Pvt. Ltd., Jaipur, Rajasthan

Feb 2026 – Present

- Spearheaded backend architecture for multi-merchant SaaS platforms, scaling capacity to support 20+ active enterprise clients and \$200K+ in quarterly transactions.
- Optimized system throughput by 35% utilizing Redis cache tiers, worker queues, and strategic relational database indexing.
- Delivered 15+ secure RESTful endpoints and automated booking workflows via Stripe, maintaining latency under 100ms.

PHP Laravel Developer – Shine Dezign Infonet Pvt. Ltd., Mohali, Punjab

June 2023 – December 2025

- Developed and maintained core modules for multiple commercial web applications using PHP and Laravel, with a focus on scalability and performance.
- Implemented real-time chat, notifications, and live updates using WebSockets, Pusher, and Firebase.
- Integrated third-party services including Stripe, Google Maps, Firebase, and social authentication to support business workflows.
- Optimized application performance through Redis caching, SQL query optimization, indexing, queues, and background jobs.

KEY PROJECTS

DineFlow (Hospitality & Venue Management)

Laravel, PHP, jQuery, Redis, Stripe

- Created a multi-vendor reservation engine with customizable merchant branding, dynamic table allocation, and automated invoicing for 5,000+ monthly bookings.

FuelFleet (On-Demand Logistics Dispatch)

Laravel, MySQL, JavaScript, Google Maps API

- Deployed real-time GPS fleet monitoring across 50+ commercial driver routes with automated billing, lowering dispatch latency by 25%.

Almaree (E-Commerce Web Application)

Laravel, Livewire, MySQL, AWS S3, Firebase

- Structured a high-volume apparel marketplace managing 10,000+ SKUs with 5-tier role-based permissions and live customer support, boosting issue resolution speed by 30%.

AURA (AI Business Automation Platform)

Laravel 12, React.js, TypeScript, AI/LLM, AWS

- Programmed an intelligent analytics suite orchestrating 5+ autonomous AI agents with RAG semantic search, accelerating customer inquiry processing by 45%.

EDUCATION

Master of Computer Applications (MCA) – 6.7 CGPA

2021 – 2023

Specialization in Cloud Computing & DevOps | Chandigarh University, Punjab

Bachelor of Computer Applications (BCA) – 73%

2017 – 2020

Magadh University, Patna, Bihar
